EXPERIENCE

FEB 2021 – TILL DATE

SR. SOFTWARE ENGINEER, VISA, BANGALORE

Visa is an American multinational financial services corporation headquartered in Foster City, California, United States. It facilitates electronic funds transfers throughout the world, most commonly through Visa-branded credit cards, debit cards and prepaid cards. Visa is one of the world's most valuable companies.

Technical Skills used – JAVA, Selenium, API Testing, Manual Testing, Functional Testing, CUCUMBER, JAVA, MAVEN, BDD Testing, Jira, Test Plan Preparation, GIT, Rally, Rest Assured, Confluence

Responsibilities

Working as an individual Contributor for VDCS Application. Here I am working both as functional as well as automation test engineer. Actively involved in Test case design, functional and automation test execution making use of Selenium, Java, Rest API with TestNG and Maven in BDD framework. Also involved in Framework development for utility development. I also have knowledge in handling Jenkins. Actively involved in Batch execution through d-series and Jenkins. Working in UI as well as API testing flows.

NOV 2017 – JAN 2021

ASSOCIATE, J P MORGAN CHASE

Worked as a software test engineer in consumer Banking applications like credit cards, debit cards, Mortgage, Home Loans with both front end and back-end applications. Extensive API testing. Performing Container validations and batch testing. Worked as a team lead handling 6 members with multiple projects associated. Supported production bugs and worked in test plan preparations and conducted demonstrations. Worked in Agile Model.

Technical Skills used – JAVA, Selenium, API Testing, Manual Testing, Functional Testing, CUCUMBER, JAVA, MAVEN, BDD Testing, Jira, Test Plan Preparation, GIT, Rest Assured, Confluence

Responsibilities

Worked as a Test Lead in a team of 5 members for handling core JPMC netbanking application with 2 modules. Worked in Manual as well as automation areas making use of BDD framework.

APR 2016– NOV 2017

SENIOR QA ENGINEER, NESS TECHNOLOGIES

Worked for Payback Client. **Payback** is a loyalty program for customers of retail businesses, with which shoppers can collect points for purchases and redeem them for vouchers, goods, or money. Payback was launched in 2000 by Loyalty Partner GmbH of Munich and operated initially only in Germany before expanding internationally to Poland, India, Mexico and Italy. In 2011 Loyalty Partner was acquired by American Express.

Technical Skill Used – API Testing, Manual Testing, Functional Testing, CUCUMBER, JAVA, MAVEN, BDD Testing, Jira, Agile, Rest, Confluence

MAR 2011 – MAR 2016

ASSOCIATE, COGNIZANT TECHNOLOGY SOLUTIONS

Worked in functional Testing, User Acceptance Testing, Regression Testing for GSSC (cognizant Internal Tool) and COMCAST. COMCAST is an American multinational telecommunications

conglomerate headquartered in Pennsylvania. Well aware with different testing models and testing lifecycles like Waterfall Model, Spiral Model, V Model etc.

Participated in UI automation testing using selenium and Java. Validated databases via DB.

Identifying defects and reporting to the concerned team.

Technical Skill Used – Manual Testing, Functional Testing, Regression Testing, UI automation, SQL, Jira

ACCOMPLISHMENTS

- JPMC Champ Award- 2018, 2019
- Ness – For outstanding performance in key delivery for client Payback - 2017
- COMCAST award for distinguished contribution – Cognizant 2015
- Cognizant award for star Performer – Cognizant 2014

ACTIVITIES

Apart from work I find time to go out for places, making friends, listening to music. During COVID time watching TV series also became part of life.
